

Please leave the Indiana Telephone Privacy Law alone. I was receiving phone calls at all times of the day which is very disturbing for someone like myself who works the night shift. These people that telemarket do not care about if they are disturbing you and are very rude. If I wouldn't answer the phone they would continue to call every half hour until I did answer then it would be a machine that would just tell you to hold on that you have a very important message. Since the Indiana Telephone Privacy Law went into effect I have not received any disturbing phone calls and have been able to get the rest I need to be able to function on a better level. I am also able to spend more time with my son who just recently started school. I would just like to say thank you to the Indiana Telephone Privacy Law!
